INT.CL. : G03G 9/08

TITLE : DRY TONER FOR ELECTROPHOTOGRAPHY

ABSTRACT : PURPOSE: To eliminate resin smell so as to obtain the aroma specific to aromatizing materials and to obtain an always stable image even in various kinds of environment by incorporating the compd. selected from cumarin, cedryl acetate and maltol into the titled toner.

CONSTITUTION: This toner contains the compd. selected from the cumarin, cedryl acetate and maltol. The amt. of the compd. (aromatizing material) to be compounded with the toner is 0.01~10pts.wt., more preferably 0.5~5pts.wt. by 100pts.wt. binder resin. The uncomfortable smell emitted from the conventional dry toner or copying machine is thereby suppressed and the aromas (fruit-like aroma from the maltol, cedar-like aroma from the cedryl acetate and the hay-like aroma from the cumarin) specific to the respective compds.; in addition, the excellent image quality and stability are obtd.
